HealthVisions Midwest has a new home

After searching for one year and looking at 25 buildings in Northwest Indiana we finally found our new home. Working with an architect and our landlord, we remodeled the office space to make it fit our needs. Warm greens and bright yellows make our new offices inviting and functional.

Our Values

In Action

This move would have never happened without the dedicated work of Angie Martin. She worked on the logistics of the move, kept us informed of progress, managed all the details of remodeling and directed us in the cleanup and packing of our old office. That doesn't even begin to take into account all the other things she did in her daily tasks during the past year. She has truly walked in Katherine Kasper's shoes.

We went from this...

...to this

Thank You Angie!

Packing!

Don Barnes and Don Santacaterina

Don Barnes shaking hands with our NEW Landlord Don Santacaterina after signing the lease for HVM's new site

Don Santacaterina is part owner of Krosan Industries and his brother Mario is the General Contractor. Don's wife, Muriel, was the interior designer.

We have been lucky to find such dedicated people who want to make our building a pleasant workplace. Not only have they offered us a reasonable rent but they have also donated a lot of the cost of remodeling.

Do you think Katherine Kasper had something to do with choosing this site? Note the last name of our landlord - SANTACATERINA!

Weeks ago serious cleaning out of files and sorting began. Ten years of paper were shredded and recycled and important papers and items were packed.

Movers came for three days and dismantled and then reassembled all our furniture.

Then the unpacking began. Steve Banach is setting up his office.

Many people helped us with the move including family members, friends, and some PHJC sisters. *Special thanks to Sr. Bonnie Boilini and Andy Piazza for their generous donation of time and energy.*
